Dear Mrs. Chapman

I was about an-  
-wering your note some time since  
inclosing a sum in aid of the  
Publication of your Annual  
when I received intelligence of  
a considerable pecuniary loss  
which makes self-denial  
in this & similar cases  
for the present your an-  
absolute tho' very unpleasant  
necessity. I cannot forbear  
repeating my regret in this  
instance, for there are no  
means used by furtherance  
of the A. S. cause which I would  
help to sustain with more

good will than the "Liberty  
Bill". I suppose however  
that the great success of  
the Fair implies also the  
success of this publication  
- at least so I hope

With sincere regard  
I am truly yours
